If the person has three (3) areas of substantial functional limitations, then the person has met the eligibility requirements for the County Board of DD. The individual or legal guardian is notified of the eligibility status.

County Boards of DD may re-determine eligibility at their discretion. Examples of required redeterminations are when an individual turns 3, 6, and 16 years old. It may also be done when a qualifying diagnosis changes, functional skills change, within a year of high school graduation, following an extended "break" in services or as the teams feels warranted.

If you move to another county in Ohio, your eligibility status may be re-determined. You will maintain your current eligibility status until the re-determination occurs in the new county of residence.

If you have any questions, please call the Auglaize County Board of DD at 419.629.2419 or The Ohio Department of DD at 1.877.464.6733.
